

## June 2025 Myanmar Earthquake Update

Dear Friends and Partners,

We want to sincerely thank all those who have so generously given towards our Myanmar Earthquake Relief these past 2 months.

It has been truly devastating the extent of damage and loss for the people of Myanmar. After the initial earthquake there have been many aftershocks even to today. There have also been fires, floods and strong winds and storms and not only that but the Military Junta also has continued to bomb and persecute the ethnic areas even only 3 hours after the major earthquake took place. The people of Myanmar are so resilient but there is so much grief and loss and the world barely hears the half of what's going on.

We are so grateful to our local partners on the ground who have been the hands and feet of Christ. We have been able to partner with 4 groups who immediately responded to bring relief to the people. Their teams continue to help families rebuild and bring comfort and hope. Please keep them in your prayers. Dakota and one of our Sozolive team members Yo also were able to fly to Myanmar and visit our local partners and bring some more aid and funds and encouragement. They were able to go along with the local teams to 2 of the affected areas sharing hope and the love of Christ with the people there. All of us working together have been able to make a lifesaving difference in thousands of lives. Thank you!

As relief efforts continue, Sozolive is now turning our attention to the border area where hundreds and thousands of families are fleeing their homes due to conflict. Schools, Churches and public areas are targeted by fighter jets and you can hear daily the bombing taking place from the Thai border town of Maesot where we go to outreach regularly. Many children and teachers have been killed by the bomb blasts and it is just unimaginable the grief that so many families are going through.

This month we plan to take 500 food and personal hygiene packages and 500 mosquito nets to desperate families hiding in the jungles on the riverbanks of the Thai Myanmar border. Please continue to stand with us and pray with us for this madness to stop. God is still in control and he is sovereign. Pray for protection over the innocent, especially the children caught in the crossfire. If you feel led to help please do reply to this email or you can donate to our ministry accounts just reference "SOZO AID".

Please find attached a summary of how we have been able to help these past few months and where your donations have gone. We have also attached a video from Dakota and Yo when they visited sites on the ground in April.

May God bless you and thank you for taking the time to read this update.

Dakota and Karennia
